

PSE and SEPS common statement on Intra-Day Market allocation on the Polish-Slovak border

Following the information provided with press release, issued on 7th Nov 2019, Polskie Sieci Elektroenergetyczne S.A. (PSE) and Slovenská elektrizačná prenosová sústava, a. s. (SEPS) acting as Transmission System Operators (TSOs) in Poland and Slovakia hereby inform that interim solution for Intra-Day Market allocation on the Polish-Slovak border based on the explicit allocation mechanism ("Interim Solution") is **scheduled to be launched on 4th February 2020** (4th February 2020 is first delivery day for which intraday allocation will be performed). Interim Solution is expected to be in operation until go-live of enduring solution which is to include the Polish-Slovak border in the Single Intra-Day Coupling (SIDC).
