

Forecast values of cross-border transmission capacity for 2020
Export Direction

PSE S.A. publishes herewith forecast of cross-border transmission capacity which was calculated with consideration of transmission system security standards and with respect to operating procedure and planning. The forecast has been prepared based on monthly transmission grid maintenance schedule. The estimation is preliminary and will be updated according to monthly maintenance schedules.

55	1800	900	900	0	23.12 - 31.12	Krosno Iskrzynia - Rzeszów

* - Volume of capacity to be allocated in yearly auction by Joint Allocation Office S.A. The volume is determined taking into account the calculated for given timeframes NTCs and the difference between surplus of power available for TSO, and the required surplus of power to be available for TSO, which according to IRIESP equals 18% of demand to be covered by national power plants.
