

MONITOR POLSKI

OFFICIAL JOURNAL OF THE REPUBLIC OF POLAND

Warsaw, 29th May 2026

No. 542

ANNOUNCEMENT OF THE

MINISTER OF ENERGY ¹

of 29th May 2026

on parameters for the supplementary auction for the delivery period relevant for the year 2027

Pursuant to Article 34b(2)(2) of the Act of 8th December 2017 on the capacity market (Journal of Laws of 2025, item 610 and 1302), the following parameters of the supplementary auction for the delivery period relevant for the year 2027 are hereby announced:

- 1) the auction target capacity for the supplementary auction for the delivery period relevant for the year 2027 shall be 6725,763 MW.
- 2) the market entry price of a new generating unit reflecting the alternative cost of power generation by the operator by constructing a generating unit at the lowest operating and capital fixed costs, taking into account the potential margin on sale of electricity and provision of system services referred to in art. 9c(2)(8) of the Act dated April 10, 1997 - Energy Law (Journal of Laws of 2026, item 43, 516 and 607), in supplementary auction for delivery period relevant for the year 2027 is equal to 558 PLN/kW.
- 3) the factor increasing the price referred to in point 2, used to calculate the maximum price applicable in the supplementary auction for delivery period relevant for the year 2027 is equal to 1,0.
- 4) the parameter determining the volume of capacity below the capacity demand in the supplementary auction for delivery period relevant for the year 2027 shall be 0 %.
- 5) the parameter determining the volume of capacity exceeding the capacity demand in the supplementary auction for delivery period relevant for the year 2027, at which the price reaches the minimum value equal to 0.01 PLN/kW/month, shall be 30 %.
- 6) the maximum price set for the price taker, determined on the basis of fixed capital and operating costs, excluding units covered by the capacity obligation in a delivery period coinciding with the delivery period for which the supplementary auction is conducted, in the supplementary auction for the delivery period relevant for the year 2027 shall be 306 PLN/kW/year.
- 7) the maximum number of rounds of the supplementary auction for the delivery period relevant for the year 2027 shall be 12.
- 8) the de-rating factors for individual technology groups for the supplementary auction for the delivery period relevant for the year 2027 shall be:
 - a) 92,67 % – for steam turbines, steam turbine systems, air turbines, fuel cells and the organic Rankine cycle;
 - b) 93,48 % – for combined cycle gas turbines;

¹ The Minister of Energy manages the department of government administration - energy, pursuant to §1(2)(1) of the Regulation of the Prime Minister of 25th July 2025 on the detailed scope of activities of the Minister of Energy (Journal of Laws, item 1206).

- c) 93,31 % – for simple cycle gas turbines and reciprocating engines;
 - d) 15,28 % – for on-shore wind turbines;
 - e) 20,86 % – for off-shore wind turbines;
 - f) 45,71 % – for hydro – run-of-river power plants;
 - g) 99,38% – for hydro – run-of-river with reservoir, hydro – reservoir with pumping, hydro – run-of-river with reservoir and pumping power plants;
 - h) 2,91 % – for solar power plants;
 - i) 95,00 % – for electricity storages in form of accumulators, kinetic energy reservoirs and supercondensers;
 - j) 97,19 % - for nuclear power plants;
 - k) 100,00 % – for demand-side response units;
 - l) 90,35 % – for other technologies.
- 9) the maximum volumes of capacity obligations in pre-auction for the supplementary auction for the delivery year 2027 for the zones referred to in Article 6(6) of the Act of 8th December 2017 on the capacity market, shall be:
- a) 0 MW – for synchronous profile zone;
 - b) 0 MW – for Lithuania;
 - c) 287 MW – for Sweden.

Minister of Energy: *M. Motyka*
