1 TECHNICAL REQUIREMENTS

In order to use the Capacity Market Participant Portal (PURM) it is necessary to have a computer with Internet access. Detailed technical requirements are available at <https://www.pse.pl/web/pse-eng/areas-of-activity/capacity-market/purm-register>

User account establishment, logging in and managing user account is described in the *Portal Uczestnika Rynku Mocy User manual. Pre-auction process*, which is available on [the website](#).

2 INFORMATION ON ANNOUNCED TEST SYTSEM STRESS EVENTS

Information on announced test system stress events is displayed on the PURM home page after logging in. The information is visible from the moment the test system stress event is announced by PSE until the end of the last announced test system stress event.

NOTE: Information on the announced test system stress events are displayed on the PURM homepage only for users included in the “List of notified parties via SMS and e-mail”, referred to in section 3.3, at the time of the announcement of the respective test system stress event.

For a given day user can view information regarding:

- date and hour of the announced test system stress event,
- date and hour of the announcement of the test system stress event,
- Capacity Market Unit code,
- Capacity Market Unit name.

3 INFORMATION ON CAPACITY MARKET UNITS

To access the module concerning the test system stress event, after logging in to the PURM, select “Performance” → “Test system stress event” → “Information on Capacity Market Units”.

NOTE: Access to “Information on Capacity Market Units” is restricted to users with following assigned rights:

- Rightholder role or
- Browse capacity agreements or
- Processing of capacity agreements and settlements

Assignment of rights is described in the *Portal Uczestnika Rynku Mocy User manual. Pre-auction process*, which is available on [the website](#).

After selecting “Information on Capacity Market Units”, user is redirected to a list of Capacity Market Units certified for a given delivery year. By default, the list of units certified for the current quarter is displayed. To switch the view to a different delivery period, the relevant year and quarter of the delivery year should be selected from the list.

Capacity Provider	CMU code	CMU name	Date of latest information on failure in the quarter	Failure number for the quarter	Date of the latest notification of readiness for performance of capacity obligation	Date of latest request for test system stress event announcement	Status of announcement of test system stress event	Date of latest application for reimbursement of justified costs	CMU status
Capacity Provider 1	JRM/2289	Capacity Market Unit 1			2025-06-26 14:51				During verification of test system stress event
Capacity Provider 1	JRM/2291	Capacity Market Unit 2							Before test system stress event
Capacity Provider 2	JRM/2302	Capacity Market Unit 3							Before test system stress event
Capacity Provider 1	JRM/2352	Capacity Market Unit 4							Positive result of test system stress event

The table contains the following information:

- name of Capacity Provider,
- Capacity Market Unit code,
- Capacity Market Unit name,
- date of the latest information on a failure in the quarter,
- failure number for the quarter,
- date of the latest notification of readiness for performance of the capacity obligation,
- date of the latest request for a test system stress event,
- status of announcement of a test system stress event upon request,

- date of the latest application for reimbursement of justified costs,
- Capacity Market Unit status.

Capacity Market Unit status may take following values:

- **No test system stress event** – means that no test system stress event was announced for the given Capacity Market Unit in the past quarter;
- **Before test system stress event** – means that no test system stress event has been announced for the given Capacity Market Unit in the current quarter;
- **Notification sent** – means that the test system stress event has been announced for the Capacity Market Unit in the current quarter, and the notification has been sent to users included in the “List of notified parties via SMS and e-mail”, referred to in section 3.3;
- **Test system stress event in progress** – means that the given Capacity Market Unit is currently undergoing the test system stress event;
- **During verification of test system stress event** – means that the performance of the capacity obligation by the given Capacity Market Unit during the test system stress event is being verified by PSE;
- **Negative result of test system stress event** – means that the given Capacity Market Unit did not perform the capacity obligation during the test system stress event;
- **Positive result of test system stress event** – means that the given Capacity Market Unit did perform the capacity obligation during the test system stress event.

It is also possible to display only those units for which the test system stress event has been announced in the given quarter. To do this, select the checkbox “**Show only the CMU with announced test system stress event**”.

Capacity Provider	CMU code	CMU name	Date of latest information on failure in the quarter	Failure number for the quarter	Date of the latest notification of readiness for performance of capacity obligation	Date of latest request for test system stress event announcement	Status of announcement of test system stress event	Date of latest application for reimbursement of justified costs	CMU status
Capacity Provider 1	JRM/2289	Capacity Market Unit 1			2025-06-26 14:51				During verification of test system stress event
Capacity Provider 1	JRM/2352	Capacity Market Unit 4							Positive result of test system stress event

3.1 List of announced test system stress events for Capacity Market Unit

To display the section containing information about the announced test system stress event for a given Capacity Market Unit, select the corresponding row in the “**Information on Capacity Market Units**” table.

Information on Capacity Market Units									
Delivery year: 2025		Delivery quarter: II		<input type="checkbox"/> Show only CMU with announced test system stress event					
Capacity Provider	CMU code	CMU name	Date of latest information on failure in the quarter	Failure number for the quarter	Date of the latest notification of readiness for performance of capacity obligation	Date of latest request for test system stress event announcement	Status of announcement of test system stress event	Date of latest application for reimbursement of justified costs	CMU status
Capacity Provider 1	JRM/2289	Capacity Market Unit 1			2025-06-26 14:51				During verification of test system stress event
Capacity Provider 1	JRM/2291	Capacity Market Unit 2							Before test system stress event

▼ List of announced test system stress events for Capacity Market Unit

Date of test system stress event	Time of test system stress event	Time and date of notification of announcement on test system stress event	Test system stress event number in the quarter	Date and time of notification of test system stress event result	Status of test system stress event
2025-05-15	13:00 - 14:00	2025-05-14 12:16	1	2025-05-15 14:49	Positive result

[Result of performance of test system stress event](#)

The “List of announced test system stress events for Capacity Market Unit” section contains information about:

- date of the test system stress event,
- time of the test system stress event,
- time and date of notification of the announcement on the test system stress event,
- the test system stress event number in the quarter,
- date and time of notification of the test system stress event result,
- status of the test system stress event.

After selecting the row concerning the given test system stress event for the Capacity Market Unit, for which the status of the test system stress event has the value 'Positive result' or 'Negative result', the “Result of performance of test system stress event” button is activated.

▼ List of announced test system stress events for Capacity Market Unit

Date of test system stress event	Time of test system stress event	Time and date of notification of announcement on test system stress event	Test system stress event number in the quarter	Date and time of notification of test system stress event result	Status of test system stress event
2025-05-15	13:00 - 14:00	2025-05-14 12:16	1	2025-05-15 14:49	Positive result

[Result of performance of test system stress event](#)

After clicking the "Result of performance of test system stress event" button, user is redirected to the "List of notifications received from PSE" table, which is described in section 4, with the section containing information about the previously selected test system stress event expanded.

3.2 List of notifications and applications for Capacity Market Unit

After selecting the row in the “Information on Capacity Market Units” table concerning the given Capacity Market Unit, the “Browse applications” button is activated.

Information on Capacity Market Units

Browse applications Manage notifications

After clicking the “**Browse applications**” button, the “**List applications for Capacity Market Unit**” section expands, containing information about:

- information on a failure of a physical unit,
- notifications of readiness for performance of the capacity obligation,
- requests for announcement of a test system stress event,
- applications for reimbursement of justified costs

for the selected Capacity Market Unit in the given quarter.

List of applications for Capacity Market Unit

GTOP/2289/2025/2/01	2025-06-26 14:52	Notification of readiness for performance of capacity obligation				Submitted

Page 1 of 1 - 1 elements
Details of application Close

The “**List of applications for Capacity Market Unit**” section contains information about:

- application ID,
- date and time of the application,
- subject of the application,
- number of failures in the quarter (referred to in section 5),
- status of announcement of a test system stress event upon request (referred to in section 5),
- date and time of change in the application status,
- status of the application (referred to in section 5).

After selecting the row in the table, “**Details of application**” button is activated. After clicking the button, user is redirected to the “**Handling of test system stress event notifications and applications**” table, which is described in section 5, with the section containing information about the previously selected notification or application expanded.

 Browse applications **Manage notifications**

NOTE: The “**Manage notifications**” button is activated only for users assigned the **Rightholder** role.

After clicking the “**Manage notifications**” button, the “**List of notified parties via SMS and e-mail**” section expands. It is described in *Portal Uczestnika Rynku Mocy User manual*. *Subscription to receive information about system stress events and notifications about test system stress events*, which is available on [the website](#).

4 VIEWING NOTIFICATIONS RECEIVED FROM PSE

To display the section containing information about announced test system stress events and results of test system stress events, after logging in to the PURM, select **“Performance”** → **“Test system stress event”** → **“View notifications received from PSE”**.

NOTE: Access to viewing notifications received from PSE is restricted to users with following assigned rights:

- Rightholder role or
- Browse capacity agreements or
- Processing of capacity agreements and settlements

Assignment of rights is described in the *Portal Uczestnika Rynku Mocy User manual. Pre-auction process*, which is available on [the website](#).

After selecting **“View notifications received from PSE”**, user is redirected to a list of notifications received from PSE.

To switch the view to a different delivery period, the relevant year and quarter of the delivery year should be selected from the list. As default the current year and quarter of the delivery year are selected.

Capacity Provider	CMU code	CMU name	Date of test system stress event	Time of test system stress event	Subject of notification	Date and time of notification	Test system stress event number in the quarter	Status of test system stress event
Capacity Provider 1	JRM/3279	Capacity Market Unit 1	2025-05-15	13:00 - 14:00	Announcement of test system stress event result	2025-05-15 14:49	1	Positive result
Capacity Provider 1	JRM/2352	Capacity Market Unit 2	2025-05-15	13:00 - 14:00	Announcement of test system stress event result	2025-05-15 14:49	1	Positive result
Capacity Provider 1	JRM/2352	Capacity Market Unit 2	2025-05-15	13:00 - 14:00	Announcement of test system stress event	2025-05-14 12:16	1	Notification sent
Capacity Provider 1	JRM/3279	Capacity Market Unit 1	2025-05-15	13:00 - 14:00	Announcement of test system stress event	2025-05-14 12:16	1	Notification sent

The table contains the following information:

- name of Capacity Provider,
- Capacity Market Unit code,
- Capacity Market Unit name,
- date of the test system stress event,
- time of the test system stress event,
- subject of the notification,
- date and time of the notification,
- test system stress event number in the quarter,

- status of the test system stress event.

Subject of the notification may take following values:

- announcement of test system stress event
- announcement of test system stress event result.

After selecting the row in the “**List of notifications received from PSE**” table concerning the given Capacity Market Unit, the “**Details of notification**” button is activated.

Capacity Provider	CMU code	CMU name	Date of test system stress event	Time of test system stress event	Subject of notification	Date and time of notification	Test system stress event number in the quarter	Status of test system stress event
Capacity Provider 1	JRM/3279	Capacity Market Unit 1	2025-05-15	13:00 - 14:00	Announcement of test system stress event result	2025-05-15 14:49	1	Positive result
Capacity Provider 1	JRM/2352	Capacity Market Unit 2	2025-05-15	13:00 - 14:00	Announcement of test system stress event result	2025-05-15 14:49	1	Positive result
Capacity Provider 1	JRM/2352	Capacity Market Unit 2	2025-05-15	13:00 - 14:00	Announcement of test system stress event	2025-05-14 12:16	1	Notification sent
Capacity Provider 1	JRM/3279	Capacity Market Unit 1	2025-05-15	13:00 - 14:00	Announcement of test system stress event	2025-05-14 12:16	1	Notification sent

After clicking the “**Details of notification**” button, information displayed in the section beneath the table varies depending on the subject of the notification.

1. When the subject of the notification is “**Announcement of test system stress event**”, the “**Details of notification**” section contains information about:
 - delivery year,
 - delivery quarter,
 - Capacity Market Unit code,
 - Capacity Market Unit name,
 - date of the test system stress event,
 - time of the test system stress event.

Delivery year	2025
Delivery quarter	2
CMU code	JRM/2352
CMU name	Capacity Market Unit 2
Date of test system stress event	2025-05-15
Time of test system stress event	13:00 - 14:00

2. When the subject of the notification is “**Announcement of test system stress event result**”, the “**Details of notification**” section contains information about:
 - delivery year,
 - delivery quarter,
 - Capacity Market Unit code,
 - Capacity Market Unit name,
 - date of the test system stress event,

- time of the test system stress event,
- capacity obligation in the test system stress event,
- performance of the capacity obligation in the test system stress event,
- grid losses accounted for in the result of the performance in the test system stress event,
- volume of non-performance of the capacity obligation,
- result of the test system stress event.

Details of notification	
Announcement of test system stress event result	
Delivery year	2025
Delivery quarter	2
CMU code	JRM/2352
CMU name	Capacity Market Unit 2
Date of test system stress event	2025-05-15
Time of test system stress event	13:00 - 14:00
Capacity obligation in test system stress event	5,000 MW
Performance of capacity obligation in test system stress event	10,000
Grid losses accounted for in result of performance in test system stress event	0,000 MW
Volume of non-performance of capacity obligation	0,000 MW
Result of test system stress event	Positive result

The “**Settlement for performance of capacity obligation in test system stress event**” section is displayed below and contains:

- additional information for settlement performance,
- volume of the capacity obligation,
- volume of losses in the grid,
- volume of capacity obligation performance,
- volume of non-performance of the capacity obligation.

Settlement for performance of capacity obligation in test system stress event for CMU (JRM/2352)	
Additional information for settlement performance	
No additional information	
Performance data	
Capacity obligation (MW)	5,000
Losses in the grid (MW)	0,000
Volume of capacity obligation performance (MW)	10,000
Volume of non-performance of capacity obligation (MW)	0,000

Additionally, the “**List of physical units in CMU**” section is displayed below and contains:

- settlement ID of performance of the physical unit,
- physical unit name,
- physical unit code,
- unit type,
- date and time of the test system stress event,
- net maximum capacity.

List of physical units in CMU (JRM/2352)					
Settlement ID of performance of physical unit	Physical unit name	Physical unit code	Unit type	Date and time of test system stress event	Net maximum capacity (MW)
JF/25AD06625C/9325/2025/II/01/01	Physical Unit 2	JF/25AD06625C/9325	Existing physical cross-border generating unit	2025-05-15 13:00 - 14:00	105,000

After selecting the row in the “**List of physical units in CMU**” section, information concerning the given physical unit is displayed in the “**Settlement for performance of physical unit in test system stress event**” section:

- physical unit code,
- physical unit name,
- volume of electricity delivered to the grid,
- volume of losses in the grid.

List of physical units in CMU (JRM/2352)					
Settlement ID of performance of physical unit	Physical unit name	Physical unit code	Unit type	Date and time of test system stress event	Net maximum capacity (MW)
JF/25AD86E25C/9325/2025/II/01/01	Physical Unit 2	JF/25AD86E25C/9325	Existing physical cross-border generating unit	2025-05-15 13:00 - 14:00	105,000

Settlement for performance of physical unit (JF/25AD86E25C/9325) in test system stress event	
Data of physical unit	
Physical unit code	JF/25AD86E25C/9325
Physical unit name	Physical Unit 2
Electricity delivered to the grid (MWh)	10,000
Losses in the grid (MW)	0,000

5 NOTIFICATIONS AND APPLICATIONS

For the purpose of:

- informing on a failure referred to in Section 16.8.1.6 of the Capacity Market Rules (hereinafter: "Rules") and displaying reported failures,
- submitting a notification of readiness for performance of the capacity obligation referred to in Article 67(7) of the Act of December 8, 2017, on the capacity market (hereinafter: "Act") and in Section 16.8.3.12 of the Rules, as well as displaying submitted notifications of readiness for performance of the capacity obligation,
- submitting a request for announcement of a test system stress event referred to in § 13(3) of the Regulation of the Minister of Energy of 13th September 2024 on the execution, settling and demonstrating the capacity obligation and concluding transactions on the secondary market (hereinafter: "Regulation") and in Section 16.8.1.14 of the Rules, as well as displaying submitted requests for announcement of a test system stress event,
- submitting an application for reimbursement of justified costs related to performance of a test system stress event, in accordance with Article 67(5) of the Act and Section 16.8.2 of the Rules (hereinafter: "application for reimbursement of justified costs") and displaying submitted applications for reimbursement of justified costs,

after logging in to the PURM, select **"Performance"** → **"Test system stress events"** → **"Notifications and applications"**.

NOTE: Access to the handling of notifications and applications is granted to users with the following assigned rights:

- **Rightholder role or**
- **Browse capacity agreements or**
- **Processing of capacity agreements and settlements**

Assignment of rights is described in the *Portal Uczestnika Rynku Mocy User manual. Pre-auction process, which is available on [the website](#)*

A table titled **"Handling of test system stress event notifications and applications"** is displayed, containing notifications and applications referred to in sections 5.1 - 5.4.

REJESTR RYNKU MOCY

ZKSZ/JRM/3183/2025/2/01	2025-06-24 13:00	Application for reimbursement of justified costs	Capacity Provider 2	JRM/3183	Capacity Market Unit 2	2025	II			2025-06-24 13:02	Rectified
WTOPI3279/2025/2/01	2025-06-12 09:37	Request for announcement of test system stress event	Capacity Provider 1	JRM/3279	Capacity Market Unit 4	2025	II		Test system stress event not announced	2025-06-13 07:28	Approved
AWR/3182/2025/2/01	2025-04-07 09:51	Information on a failure	Capacity Provider 1	JRM/3182	Capacity Market Unit 1	2025	II	1st failure			Submitted

The table contains information on:

- application ID,
- date and time of the application submission,
- subject of the application,
- name of Capacity Provider,
- Capacity Market Unit code,
- Capacity Market Unit name,
- delivery year,
- quarter of the delivery year,
- number of failures in the quarter (field filled for the subject *Information on a failure*),
- status of the announcement of a test system stress event upon request (field filled for the subject *Request for announcement of test system stress event*),
- date and time of change in the application status,
- status of the application.

"Number of failures in the quarter" can take the following values:

- **1st failure** – indicates that the given information on a failure is the first reported failure in the quarter;
- **2nd failure** – indicates that the given information on a failure is the second reported failure in the quarter;
- **≥ 3rd failure** – indicates that the given information on a failure is at least the third reported failure in the quarter.

"Status of the announcement of the test system stress event upon request" can take the following values:

- **Awaiting the announcement of test system stress event** – indicates that for the selected unit, for which a request for announcement of a test system stress event has been submitted, the test system stress event has not yet been announced in the given quarter;

- **Test system stress event announced** – indicates that for the selected unit, for which a request for announcement of a test system stress event has been submitted, the test system stress event has been announced;
- **Test system stress event not announced** – status displayed after the end of the quarter – indicates that for the selected unit, for which a request for announcement of a test system stress event has been submitted, the test system stress event has not been announced.

NOTE: Request for the announcement of a test system stress applies only to demand side response Capacity Market Units.

"Status of application" can take the following values:

- **Submitted;**
- **Rejected** – status displayed only for the subjects: *Request for announcement of test system stress event* and *Application for reimbursement of justified costs*;
- **Approved** – status displayed only for the subjects: *Request for announcement of test system stress event* and *Application for reimbursement of justified costs*;
- **Unexamined** – status displayed only for the subjects: *Request for announcement of test system stress event* and *Application for reimbursement of justified costs*;
- **Withdrawn pending** – status displayed only for the subject *Application for reimbursement of justified costs*;
- **Withdrawn** – status displayed only for the subject *Application for reimbursement of justified costs*;
- **Returned for correction** – status displayed only for the subject *Application for reimbursement of justified costs*;
- **Rectified** – status displayed only for the subject *Application for reimbursement of justified costs*.

To switch the view to a different delivery period, select the appropriate year and quarter from the list. By default, the current quarter and delivery year are selected.

Application ID	Date and time of application	Subject	Capacity Provider	CMU code	CMU name	Delivery year	Quarter of the delivery year	Number of failures in the quarter	Status of the announcement of the test system stress event upon request	Date and time of change in application status	Status of application

AMR/3182/2025/01	2025-04-07 09:51	Information on a failure	Capacity Provider 1	JRM/3182	Capacity Market Unit 1	2025	II	1st failure			Submitted

After selecting the row related to a specific notification/request, an additional section titled "**Details of the notification / request**" expands below the table. The information in this section varies depending on the subject of the notification / application and is described in section 5.6.

5.1 Information on failure

In order to submit an information on a failure, click the **“Inform about failure”** button.

The screenshot shows the REJESTR RYNKU MOCY portal interface. At the top, there is a navigation bar with various menu items like Rights, Certification, Auctions, etc. Below the navigation bar, the main heading is "Handling of test system stress event notifications and applications". There are filters for "Delivery year" (2025) and "Delivery quarter" (II). A table lists several applications with columns for Application ID, Date and time of application, Subject, Capacity Provider, CMU code, CMU name, Delivery year, Quarter of the delivery year, Number of failures in the quarter, Status of the announcement of the test system stress event upon request, Date and time of change in application status, and Status of application. The last row, with Application ID AMR/3182/2025/2/01, is highlighted. Below the table, there is a pagination bar showing "Page 1 of 1 - 5 elements" and a "Refresh" button. At the bottom, a navigation bar contains several buttons: "Inform about failure" (highlighted with a red box), "Notify readiness for performance of capacity obligation", "Request announcement of test system stress event", and "Apply for reimbursement of justified costs".

To proceed to the application, user must confirm having read and accepted the provisions of the Rules.

NOTE!

I have read, understood and accepted current version of the [Capacity Market Rules](#)

Proceed to the application
Cancel

After clicking the **“Proceed to the application”** button, the **“Information on failure”** section expands.

The screenshot shows the expanded "Information on failure" form. The "Information on failure" section is highlighted with a red box. The form contains the following fields and sections:

- Subject:** Information on failure
- Delivery year:** 2025
- Quarter of the delivery year:** 2
- Name of Capacity Provider *:** A dropdown menu.
- Capacity Provider's identification data:** A form with fields for Legal form, Identification data (Tax identification number, REGON number, Number of entry in the relevant registry, PESEL number/Passport number), and Address.
- Capacity market unit code *:** A dropdown menu.
- Capacity market unit name:** A text input field.
- Physical unit code *:** A dropdown menu.
- Physical unit name:** A text input field.
- Attachments:** A section with an "Attach file" button, a "No attachment" message, and a note: "The number of attachments exceeds the allowed number (10) Maximum attachment size is 20 MB". There is also a checkbox for "The information in appendices is confidential business information".
- Additional information:** A large text area for providing more details.
- Buttons:** "Sign" and "Cancel" buttons at the bottom right.

To correctly fill out the form, it is mandatory to:

- in the field **"Name of Capacity Provider"** – select the name of the capacity provider whose unit encountered a failure,
- in the field **"Capacity market unit code"** – select the code of the Capacity Market Unit to which the information on a failure pertains,
- in the field **"Physical unit code"** – select the code of the physical unit which is a part of the selected Capacity Market Unit to which the information on a failure pertains.

Additionally, user can fill in the **"Additional information"** field, and by using the **"Attach file"** button, it is possible to add attachments (especially documents confirming authorization).

The fields **"Capacity market unit name"** and **"Physical unit name"** are automatically filled based on the selected Capacity Market Unit code and physical unit code.

5.4 Application for reimbursement of justified costs

5.4.1 Application submission

In order to submit an application for reimbursement of justified costs, click the "Apply for reimbursement of justified costs" button.

The screenshot shows the 'REJESTR RYNKU MOCY' portal interface. At the top, there is a navigation bar with various menu items like 'Rights', 'Certification', 'Auctions', etc. Below the navigation bar, the main heading is 'Handling of test system stress event notifications and applications'. There are filters for 'Delivery year' (set to 2025) and 'Delivery quarter' (set to II). A table lists several applications with columns for Application ID, Date and time of application, Subject, Capacity Provider, CMU code, CMU name, Delivery year, Quarter of the delivery year, Number of failures in the quarter, Status of the announcement of the test system stress event upon request, Date and time of change in application status, and Status of application. The 'Apply for reimbursement of justified costs' button is highlighted in red in the bottom navigation bar.

Application ID	Date and time of application	Subject	Capacity Provider	CMU code	CMU name	Delivery year	Quarter of the delivery year	Number of failures in the quarter	Status of the announcement of the test system stress event upon request	Date and time of change in application status	Status of application
GTOP/2289/2025/2/01	2025-06-26 14:52	Notification of readiness for performance of capacity obligation	Capacity Provider 1	JRM/2289	Capacity Market Unit 5	2025	II				Submitted
ZKSZ/JRM/3182/2025/2/01	2025-06-25 07:27	Application for reimbursement of justified costs	Capacity Provider 1	JRM/3182	Capacity Market Unit 1	2025	II			2025-06-27 14:21	Retained for correction
ZKSZ/JRM/3183/2025/2/01	2025-06-24 13:00	Application for reimbursement of justified costs	Capacity Provider 2	JRM/3183	Capacity Market Unit 2	2025	II				Submitted
WTOP/3279/2025/2/01	2025-06-12 09:37	Request for announcement of test system stress event	Capacity Provider 1	JRM/3279	Capacity Market Unit 4	2025	II		Test system stress event not announced	2025-06-13 07:28	Approved

Additional information

To correct the request, click the **"Rectify application"** button. The following actions are possible: changing the requested reimbursement amount, removing previously added attachments and then attaching revised documents that address the comments provided by PSE, as well as modifying the content of the submitted additional information. After user has added the appropriate attachment, the subsequent actions related to signing the corrected application should be performed similarly to those described in Section 5.4.1.

5.5 Signing applications

After filling out the form, click the "Sign" button.

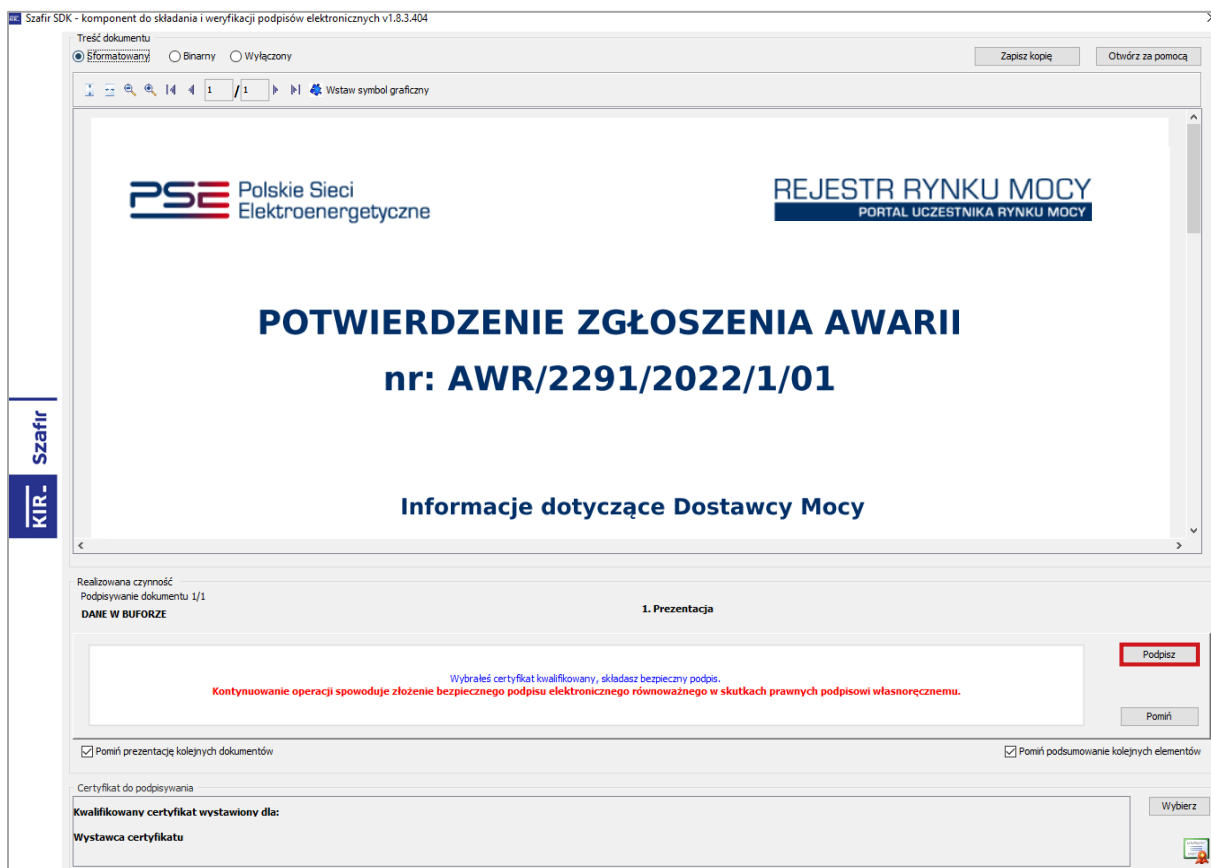

After clicking the "Sign" button, the process of uploading attachments begins. When the process is successfully completed, the symbol "✔" appears next to the attachments.

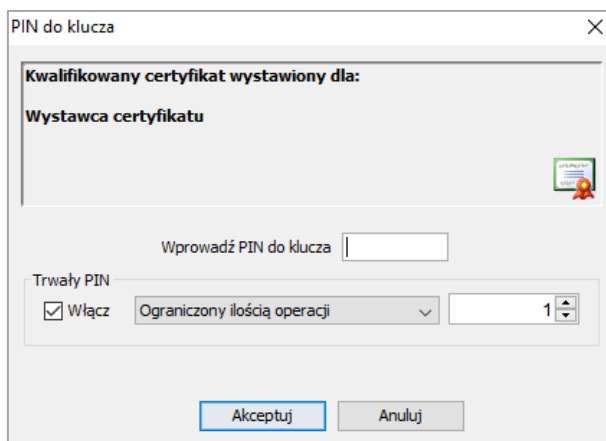

In case of a file having no qualified electronic signatures, the following message is displayed:

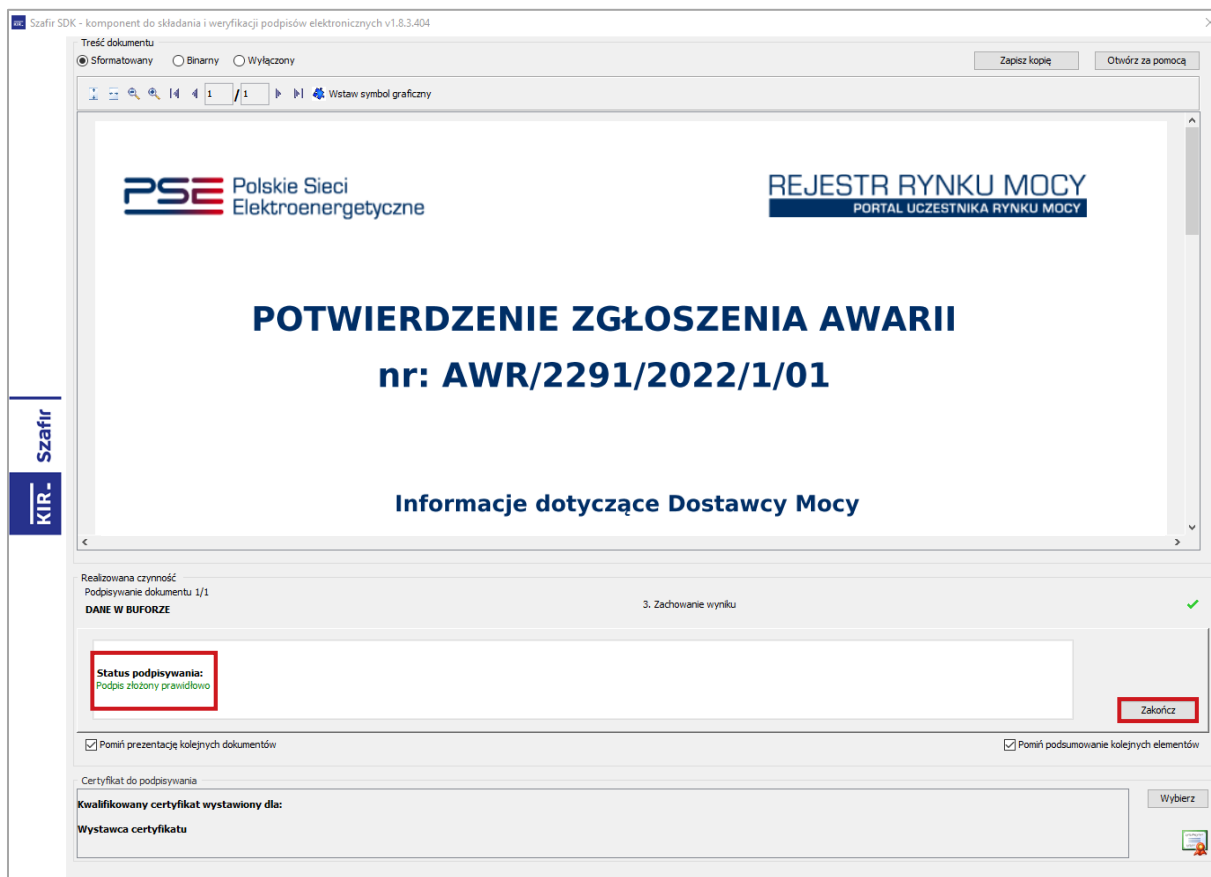

After entering all the required information and adding attachments, the process continues by generating a document containing details of the application, which must be signed with a qualified electronic signature by clicking the "Podpisz" (Sign) button.

Next enter the PIN to the qualified electronic signature and click the **"Akceptuj"** (Accept) button.

After successfully signing the application, a message saying **"Podpis złożony prawidłowo"** (Signature executed properly) is displayed in the signature submission window. Click the **"Zakończ"** (Finish) button.

After successfully signing the application, user should confirm its submission with an SMS code. The SMS code is sent automatically to the phone number associated with the user's account. To confirm the submission of the application, enter the received code in the field "**Enter the SMS code**" and confirm by clicking the "**Confirm**" button.

SMS Confirmation

Enter the SMS code*

NOTE: The SMS code is active for 20 minutes. After that time, the code expires, and it is necessary to go through the process of signing the application again.

In the case of incorrectly entering the SMS code, the message "**Wrong code entered. Please try again**" is displayed.

Error

Wrong code entered. Please try again

NOTE: After three unsuccessful attempts to enter the code, it expires. In this case, click the "Cancel" button and re-sign the application.

Upon successful verification of the SMS code, the application is submitted, and a confirmation message is sent to user's e-mail address. After completing the submission process, user has the option to view its contents by selecting the corresponding row in the "**Handling of test system stress event notifications and applications**" table and clicking the "**Details of the notification / request**" button.

5.6 Application details

The information contained in the "**Details of the notification / request**" section is displayed according to the subject:

1. In the case where the subject is "**Information on a failure**", the "**Details of the notification / request**" section includes information about:
 - subject,
 - application ID,
 - application status,
 - number of failures in the quarter,
 - name of Capacity Provider,
 - Capacity Provider's identification data,
 - Capacity Market Unit code,
 - Capacity Market Unit name,
 - physical unit code,
 - physical unit name,
 - date and time of the application,as well as a list of attachments and the content of the information.
