## 1 TECHNICAL REQUIREMENTS

In order to use the Capacity Market Participant Portal (PURM) it is necessary to have a computer with Internet access. Detailed technical requirements are available at <https://www.pse.pl/web/pse-eng/areas-of-activity/capacity-market/purm-register>

**User account establishment, logging in and managing user account is described in the *Portal Uczestnika Rynku Mocy User manual. Pre-auction process*, which is available on [the website](#).**

## 2 GENERAL INFORMATION

In accordance with Article 67 paragraph 1 of the Capacity Market Act of 8 December 2017 (hereinafter referred to as the "Act"), after the end of each quarter in the delivery year, the capacity provider shall demonstrate to PSE the ability to perform the capacity obligation in relation to each of the Capacity Market Units covered by the capacity obligation.

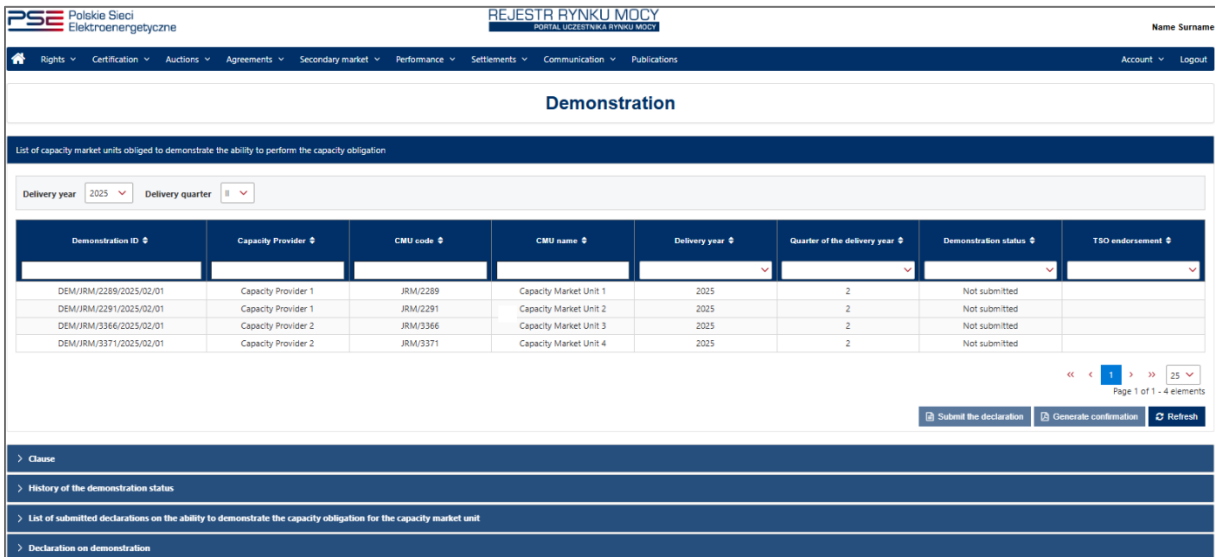

Demonstrating the ability to perform the capacity obligation consists of indicating the date and time at which the Capacity Market Unit supplied capacity to the system (demonstration). Detailed conditions and the method of demonstrating the ability to perform the capacity obligation are described in the Regulation of the Minister of Climate and Environment of 13 September 2024 on the execution, settling and demonstrating the capacity obligation and concluding transactions on the secondary market (hereinafter referred to as the "Regulation").

### 3 DEMONSTRATION OF ABILITY TO PERFORM THE CAPACITY OBLIGATION (DEMONSTRATION)

In order to submit a declaration on demonstrating the ability to perform the capacity obligation (hereinafter: "demonstration declaration"), after logging in to PURM, select "**Performance**" → "**Demonstration**" from the main menu.

After clicking on the "**Demonstration**", the user will be redirected to a table containing a list of Capacity Market Units obliged to demonstrate the ability to perform the capacity obligation (demonstration).

By default, the table contains a list of Capacity Market Units obliged to demonstrate for the last quarter. The user can display the table for previous quarters by selecting the appropriate delivery year and quarter from the drop-down lists located above the table.

**NOTE: In case of a Capacity Market Unit that is covered by a capacity agreement but, as a result of an approved secondary trading transaction, its entire capacity obligation for the given quarter has been transferred to another unit, a demonstration for that quarter is not required. This unit will not appear in the table listing Capacity Market Units obliged to demonstrate.**

The table contains all Capacity Market Units obliged to demonstrate, for which the user has the necessary permissions.

**NOTE: Access to the demonstration module is granted to users with the following permissions:**

- **Rightholder role or**
- **Browse capacity agreements or**
- **Processing of capacity agreements and settlements**

**Assignment of permissions is described in the *Portal Uczestnika Rynku Mocy User manual. Pre-auction process*, which is available on [the website](#).**

The list includes data used to identify the demonstration of the selected Capacity Market Unit, i.e.:

- demonstration ID,
- capacity Provider,
- CMU code,
- CMU name,
- delivery year,
- quarter of the delivery year,
- demonstration status,
- TSO endorsement.

It is possible to sort the demonstration list by any column and to search by selecting a value from the dropdown list or by entering a search phrase in the field under the column name.

The demonstration status informs the user about PSE's verification of the Capacity Market Unit's ability of performance of the capacity obligation. Possible demonstration statuses are:

- **Not submitted** – before submitting the demonstration declaration, for Capacity Market Units for which it is required;
- **Submitted** – after the user has submitted the demonstration declaration;
- **Positive** – when the demonstration has been positively verified by PSE;
- **Negative** – when the demonstration has been negatively verified by PSE.

The TSO endorsement informs the user of the basis for PSE's verification of the demonstration. Possible TSO endorsements are:

- **Delivery of capacity not lower than maximum capacity obligation volume in the quarter** – the capacity provider indicated the date and time when the Capacity Market Unit delivered capacity to the system in an amount not lower than the maximum capacity obligation capacity in the given quarter;
- **Non-deliverance of capacity equal to or higher than maximum capacity obligation volume in the quarter** – the capacity provider indicated the date and time when the Capacity Market Unit did not deliver capacity to the system in an amount not lower than the highest capacity obligation volume in the given quarter;
- **Failure to demonstrate ability to perform capacity obligation** – the capacity provider did not submit the required demonstration declaration;
- **Positive result of test system stress event** – the Capacity Market Unit performed demonstration based on a positive result of the test stress event in the given quarter;
- **Full performance of adjusted capacity obligation in system stress event** – the Capacity Market Unit performed demonstration based on full performance of the adjusted capacity obligation during the system stress event in the given quarter;
- **Non-removal of grid constraints or continuation of issuing orders preventing performance of demonstration** – the Capacity Market Unit performed demonstration because, in the given delivery year quarter, grid constraints were not removed or operating orders preventing the demonstration were not ceased within 14 days from the submission of the request to remove such constraints or cease such orders;

**NOTE: Abovementioned basis applies only to Capacity Market Units located in Poland.**

- **Demand reduction resulting from the operating orders of PSE** – the Capacity Market Unit performed demonstration based on indicating the date and time of providing a system service to PSE as the time when the unit delivered capacity to the system;  
**NOTE: Abovementioned basis applies only to Capacity Market Units located in Poland.**
- **Non-announcement of test system stress event or non-issuance of a demand reduction order for the purpose of another system service** – the Capacity Market Unit performed demonstration because, in the given delivery year quarter, no test system stress event was announced in accordance with the request (nor was an issuance to reduce electricity consumption to provide another system service in accordance with the request);  
**NOTE: Abovementioned basis in parentheses applies only to Capacity Market Units located in Poland.**
- **Other.**

### 3.1 Submitting a demonstration declaration

To submit a demonstration declaration for a given Capacity Market Unit, select the relevant row in the table. The “Submit the declaration” button will be activated.

**Demonstration**

> Declaration on demonstration

**NOTE:** The ability to submit a demonstration declaration is granted to users with the following permissions:

- Rightholder role or
- Browse capacity agreements or
- Processing of capacity agreements and settlements.

Assignment of permissions is described in the *Portal Uczestnika Rynku Mocy User manual. Pre-auction process*, which is available on [the website](#).

Before proceeding to the submission form, acceptance of the current version of the Capacity Market Rules is required.

**NOTE!**

I have read, understood and accepted current terms of the [Capacity Market Rules](#)

After accepting the current version of the Capacity Market Rules, the user will be redirected to the “**Demonstration declaration**” section, which contains information about:

- Capacity Market Unit code,
- Capacity Market Unit name,
- Capacity Provider name,
- Capacity Provider details (legal form, identification data, address).

Depending on the basis for demonstration, the scope of information required in the declaration varies. For this reason, the method of completing the declaration for each case is described separately in subsections 3.1.1– 3.1.6.

The basis for demonstration may be:

- indication of date and time of demonstration
- indication of date and time of system stress event
- indication of date and time of test system stress event
- non-announcement of test system stress event or non-issuance of a demand reduction order for the purpose of another system service
- non-removal of grid constraints or continuation of issuing orders preventing performance of demonstration
- demand reduction resulting from the operating orders of PSE

After completing the demonstration data, the user must select the appropriate form for the person submitting the statement and attach a document confirming authorization. Depending on the selected form of the declarant, attaching a file is either required or optional:

- **Legal representative of the capacity provider**  
In the “**Document confirming authorisation**” field, attach Appendix 4.3 to the Capacity Market Rules – “Power of attorney for the register user”, authorizing at least the actions specified in point 16 of the Rules, including those related to system stress events, test system stress events, demonstrations, and sudden events, if the user has not previously submitted this document or it has not been accepted in the register.
- **Single-person legal representative of the capacity provider in the relevant registry** – no attachments are required.
- **Capacity provider being a natural person** – no attachments are required.

**NOTE: In the “Additional attachments” field, other documents that support the verification of the demonstration declaration may be added.**

It is possible to mark attachments added in the “Document confirming authorisation” and “Additional attachments” fields as trade secrets. An incorrectly added attachment can be removed by clicking the “” icon.

### 3.1.1 Delivery of capacity not lower than the maximum capacity obligation volume in the given quarter

To complete the demonstration declaration, it is mandatory to indicate the date and time at which the Capacity Market Unit delivered capacity to the system in an amount not lower than the maximum capacity obligation of that unit in the given quarter. After clicking the “📅” button in the “**Date of demonstration**” field, select the relevant day of the quarter.

### 3.1.2 Positive result of the test system stress event

In case where the Capacity Market Unit has a positive result of the test system stress event, pursuant to § 12(2) of the Regulation, it is deemed that the unit has demonstrated ability to perform capacity obligation in reference to Article 67(1) of the Act.

To submit the demonstration declaration, the appropriate basis must be indicated, and then the date and time of the test system stress event must be selected from the dropdown list.

### 3.1.3 Full performance of the adjusted capacity obligation in a system stress event

In case of full performance of the adjusted capacity obligation in a system stress event, pursuant to § 12(2) of the Regulation, it is deemed that the unit has demonstrated ability to perform capacity obligation with reference to Article 67(1) of the Act.

To submit the declaration, it is required to indicate the appropriate basis, and then to select the date and time of the system stress event from the dropdown list.

The process of signing the declaration with a qualified electronic signature is described in section 3.2.

### 3.1.4 Non-removal of grid constraints or continuation of issuing orders preventing performance of demonstration

**NOTE: This basis applies only to Capacity Market Units located in Poland.**

In case where PSE or DSO did not remove grid constraints or cease issuing operating orders that prevent the demonstration, within 14 days from the request for their removal or withdrawal, pursuant to § 12(6) of the Regulation, it is deemed that the unit has demonstrated the ability to perform the capacity obligation in reference to Article 67(1) of the Act.

To submit the demonstration declaration, the appropriate basis must be indicated.

Then, after selecting the appropriate form of the applicant and attaching the required documents, click the **“Sign”** button to submit the declaration.

The process of signing the declaration with a qualified electronic signature is described in section 3.2.

### 3.1.5 Non-announcement of test system stress event or non-issuance of a demand reduction order for the purpose of another system service

**NOTE: The second part of this basis applies only to Capacity Market Units located in Poland.**

In case where PSE have not announced a test system stress event nor issued an order for reduction in consumption of electricity from the grid in order to carry out another system service, pursuant to § 13(4) of the Regulation, it is deemed that the unit has demonstrated in reference to Article 67(1) of the Act.

To submit the demonstration declaration, the appropriate basis must be indicated.

Then, after selecting the appropriate form of the applicant and attaching the required documents, click the **“Sign”** button to submit the declaration.

The process of signing the declaration with a qualified electronic signature is described in section 3.2.

### 3.1.6 Demand reduction resulting from the operating orders of PSE

**NOTE: This basis applies only to Capacity Market Units located in Poland.**

In case where, in a given quarter of the delivery year, a demand-side response Capacity Market Unit was used to provide a system service to PSE involving a reduction in electricity consumption resulting from the operating orders of PSE, and the unit temporarily reduced its consumption to deliver that service, then pursuant to § 13(1) of the Regulation, it is deemed that the unit has demonstrated ability to perform capacity obligation in reference to Article 67(1) of the Act.

To submit the demonstration declaration, the appropriate basis must be indicated. Then, the date and time when the Capacity Market Unit provided the system service involving demand reduction in the given quarter must be selected. After clicking the “📅” button in the “Date” field, select the relevant day of the quarter.

The process of signing the declaration with a qualified electronic signature is described in section 3.2.

### 3.2 Signing declaration

After completing the form, click the **“Sign”** button.

The process of uploading attachments will begin. When the upload is successful, each attachment will be marked with “✔”.

**Document confirming authorisation (Appendix 4.3 to the Capacity Market Rules)**

**Attach file**

Za1_4.3-sig.pdf	✔	
-----------------	---	--

The number of attachments exceeds the allowed number (10)

Maximum attachment size is 20 MB

The information in the attachments is confidential

If a file is not signed with a qualified electronic signature, the following message will appear:

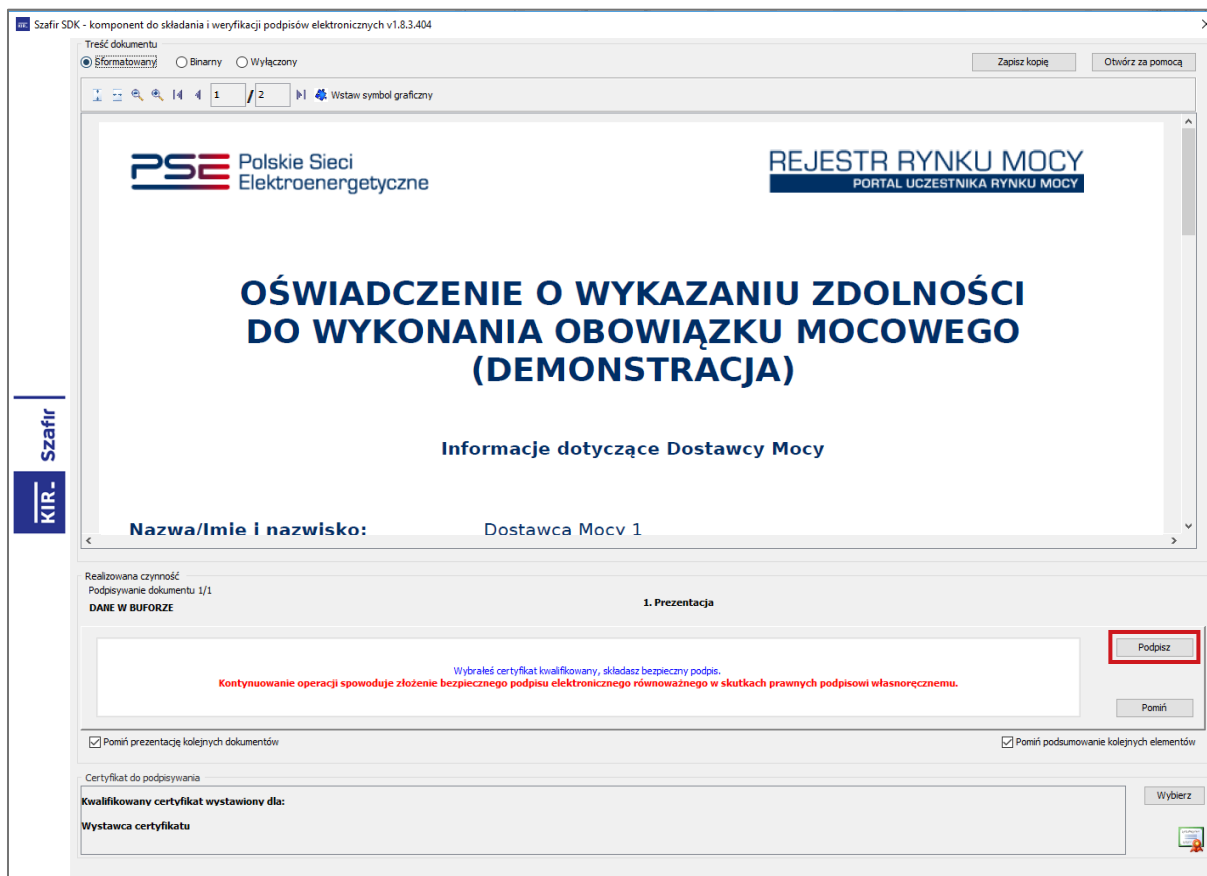

Error

---

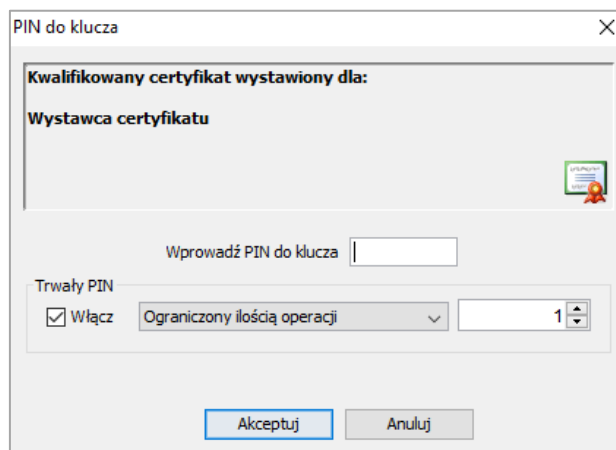

Signature verification error

Close

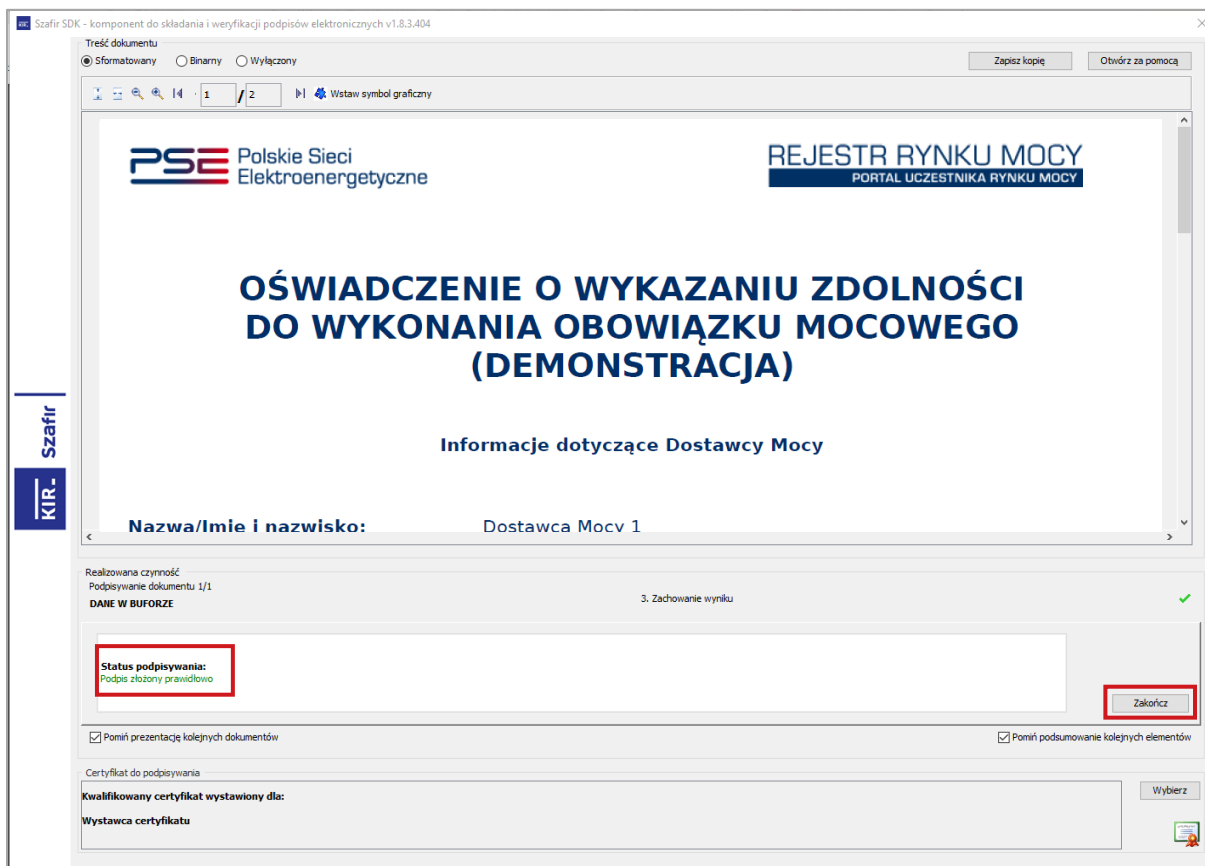

After entering all required data and uploading the necessary attachments, the process continues with the generation of a document containing the details of the demonstration declaration. This document must be signed with a qualified electronic signature by clicking the “**Podpisz**” (Sign) button.

Then, enter the PIN for the qualified electronic signature.

Once the declaration is successfully signed, the message “**Podpis złożony prawidłowo**” (Signature completed successfully) will appear in the signature window. Click the “**Zakończ**” (Finish) button.

After signing the declaration, the user must confirm its submission using an SMS code. The code is sent to the phone number linked to the user's account. To confirm submission, enter the received code in the "Enter SMS code" field and click "Confirm".

**SMS Confirmation**

---

Enter the SMS code\*

**NOTE: The SMS code is valid for 20 minutes. After that time, it expires and the signing process must be repeated.**

If the SMS code is entered incorrectly, the following message will appear: "Incorrect code entered. Please try again."

Error

---

Wrong code entered. Please try again

**NOTE: After three failed attempts, the code expires. In this case, click the "Cancel" button and repeat the declaration signing process.**

Once the SMS code is successfully verified, the declaration is submitted, and a confirmation message is sent to the user's email address. After the process is complete, the user can view the contents of the declaration by selecting it from the **“List of submitted declarations on the ability to demonstrate the capacity obligation for the Capacity Market Unit”**, as described in section 3.3.

### 3.3 List of submitted declarations

In the **“List of Capacity Market Units obliged to demonstrate the ability to perform the capacity obligation”** table, users can view submitted declarations, their statuses, and the verification details provided by PSE. For this purpose, click on the relevant row in the table to select the demonstration.

This will expand the section titled **“List of submitted declarations on the ability to demonstrate the capacity obligation for the Capacity Market Unit”** for the selected unit in the given delivery quarter.

The table in this section includes:

- declaration ID assigned by the system,
- date and time of submission,
- status of the declaration,
- date and time of the last status update.

A demonstration declaration may have one of the following statuses:

- Submitted
- Positive
- Negative
- Not submitted

Each new declaration receives the status “**Submitted**” and is assigned a sequential number in the final part of the declaration ID (e.g. number 02).

**NOTE: If the Capacity Market Unit is involved in a secondary trading transaction that is not approved by PSE before the end of the quarter, the highest capacity obligation value for that quarter may increase or decrease once the transaction is approved.**

PSE verifies the capacity volume delivered to the system on the date and time specified in the demonstration declaration. After verification, the delivered capacity volume is displayed in the **“Capacity delivered to the system”** field.

**NOTE: The “Capacity delivered to the system” field will have a value in declarations with the endorsements:**

- **Delivery of capacity not lower than maximum capacity obligation volume in the quarter,**
- **Non-deliverance of capacity equal to or higher than maximum capacity obligation volume in the quarter.**

### 3.4 Withdrawing declaration

The user may withdraw a demonstration declaration during the submission period. For this purpose, select the relevant declaration by clicking the appropriate row in the “List of Capacity Market Units obliged to demonstrate the ability to perform the capacity obligation” table. This will expand the section titled “List of submitted declarations on the ability to demonstrate the capacity obligation for the Capacity Market Unit”.

**NOTE: The ability to withdraw a demonstration declaration is available to:**

- a user with the rightholder role or
- the user who submitted the declaration.

Withdraw the declaration Close

**IMPORTANT: A demonstration declaration can only be withdrawn during the declaration submission period, that is until the 10th working day of the month following the end of the quarter.**

After clicking the **“Withdraw the declaration”** button, a confirmation message will appear.

Confirmation of withdrawal of declaration

---

Are you sure you want to withdraw the declaration No. OSW/JRM/2289/2025/02/01?

✔ Confirm
✘ Cancel

Clicking **“Confirm”** initiates the signature process for the withdrawal, which follows the same steps as signing a declaration, as described in section 3.2.

Once the withdrawal is successfully signed, the declaration status will change to **“Withdrawn”**, and a confirmation email will be sent to the user’s email address.

## 4 HISTORY OF THE DEMONSTRATION STATUS

If PSE changes the verification of a demonstration, the user can view the updated information. For this purpose, select the demonstration by clicking the relevant row in the “List of Capacity Market Units obliged to demonstrate the ability to perform the capacity obligation” table. The “History of the demonstration status” section will expand, which contains a list of demonstration statuses for the Capacity Market Unit in the given delivery quarter.

**Demonstration**

List of Capacity Market Units obliged to demonstrate ability to perform capacity obligation

Delivery year: 2025 Delivery quarter: II

Demonstration ID	Capacity Provider	CMU code	CMU name	Delivery year	Quarter of the delivery year	Demonstration status	TSO endorsement
DEM/IRM/2289/2025/02/01	Capacity Provider 1	IRM/2289	Capacity Market Unit 1	2025	2	Positive	Delivery of capacity not lower than maximum capacity obligation volume in the quarter
DEM/IRM/2291/2025/02/01	Capacity Provider 1	IRM/2291	Capacity Market Unit 2	2025	2	Not submitted	
DEM/IRM/3366/2025/02/01	Capacity Provider 2	IRM/3366	Capacity Market Unit 3	2025	2	Not submitted	
DEM/IRM/3371/2025/02/01	Capacity Provider 2	IRM/3371	Capacity Market Unit 4	2025	2	Not submitted

**Clause**

CONFIRMATION OF THE ABILITY TO PERFORM THE CAPACITY OBLIGATION (DEMONSTRATION) IN QUARTER 2, OF THE DELIVERY YEAR 2025 BY THE CAPACITY MARKET UNIT WITH CODE IRM/2289

Polskie Sieci Elektroenergetyczne S.A., acting pursuant to Section 16.7.11 of the Capacity Market Rules, hereby informs of a positive result of the demonstration referred to in Article 6(11) of the Capacity Market Act of 8 December 2017 (Dz. U. z 2021 r. poz. 1854), for the Capacity Market Unit with code IRM/2289.

The ability to perform the capacity obligation (demonstration) has been confirmed by an appropriate entry in the register.

**History of demonstration status**

Date of change in demonstration status	Demonstration status	Capacity delivered to system (MW)	TSO endorsement	Declaration ID upon which demonstration was verified	Date of change in declaration status	Status	Clause
2025-08-04 14:51	Positive		Delivery of capacity not lower than maximum capacity obligation volume in the quarter	OSW/IRM/2289/2025/02/02	2025-08-04 14:51	Positive	CONFIRMATION OF THE ABILITY TO PERFORM THE CAPACITY OBLIGATION (DEMONSTRATION) IN QUARTER 2, OF THE DELIVERY YEAR 2025 BY THE CAPACITY MARKET UNIT WITH CODE IRM/2289...

**NOTE: A change in demonstration verification by PSE occurs if the capacity provider raises complaint regarding a negative result of the verification, and this complaint is considered positively, in accordance with the procedure described in sections 19.1 item 11 and 19.3 item 4 of the Capacity Market Rules.**

The list includes the following information identifying the demonstration status of the selected Capacity Market Unit:

- date of change in demonstration status,
- demonstration status,
- capacity delivered to system (MW),
- TSO endorsement,
- declaration ID upon which demonstration was verified,
- date of change in the declaration status,
- status,
- clause.

The list of demonstration statuses can be sorted by any column. It is also possible to search by selecting a value from a dropdown list or by entering a search phrase in the field below the column name.

## 5 CONFIRMATION OF ABILITY TO PERFORM THE CAPACITY OBLIGATION (DEMONSTRATION)

If the demonstration is positively verified by PSE, the user can generate a confirmation of the demonstration of the ability to perform the capacity obligation. For this purpose select the demonstration by clicking the relevant row in the “List of Capacity Market Units obliged to demonstrate the ability to perform the capacity obligation” table. The “Generate confirmation” button will be activated.

**Demonstration**
